Classification: UNCLASSIFIED

Caveats: NONE

All-

As I mentioned below, the Corps has had an internal review of the submitted materials. I have received the memorandum completing our review and as mentioned below I am sharing this document for your information.

Again, I would like to thank all of you for your support.

If you have any questions please contact me at either 775-784-5304 or via this e-mail address.

Kristine Hansen
Senior Project Manager
US Army Corps of Engineers, Sacramento District Reno Regulatory Field Office
300 Booth Street, Room 3050

All-

I paused on scheduling this call due to availability for an internal Corps review by qualified staff. At this point I am not sure that more discussion is needed.

I will provide a copy of the Corps findings in review of the submitted materials from RTC and the agencies when it is ready.

Thank you all for your support during this application review. I appreciate the collaboration and information that you all have provided thus far.

Subject: [EXTERNAL] RE: SE Connector RTC Response to NDEP and USEPA Comments RE: The Mercury Technical Memo (UNCLASSIFIED)

Hi Kristine,

Thanks so much for sending this information and coordinating a call. I have just now had the chance to review the materials, and would be available on 8/28 between 9 and 10:30. However I have the feeling we will need to postpone at least another week for more people to be available. I will be available most of next week.

Regards,

Leana

All-

I am reaching out to you to help determine if the RTC responses (attached) have addressed your comments (attached) to the Technical Memorandum prepared by CH2M Hill for RTC dated April 8, 2014 (attached).

This is an important topic in our review. Your input regarding the responses and whether your concerns have been resolved will help the Corps move forward with our decision. We will be having an internal expert review all the materials and would like to be sure that we have an accurate understanding of all the concerns.

I would like to schedule a teleconference within the next 2 weeks to discuss any issues.

Please respond with your availability for:

8/26 between 9 am and 12 pm

8/27 between 11 am and 3 pm

8/28 between 9 am and 1 pm

I will send out additional dates if these don't work.

Thank you all for your review and comments up to this point.
